Secondary Colors

Snacko’s packaging color system extends beyond the core brand palette to introduce rich, flavorful tones that reflect product ingredients and encourage shelf appeal. This secondary palette includes flavor-driven, seasonal, and nut-inspired tones that work together to provide variety while preserving brand recognition.

These colors help distinguish product types (like nuts, spices, sweets, and baked snacks) and add emotional and visual richness across the Snacko product range.

BAND CHARACTER

Snacko is more than just a snack brand - it's a vibrant personality that lives in every bite and every interaction. Our brand character is playful, bold, and full of energy, just like our snacks.

Character Representation

The **squirrel** - it's a symbol that inspires the essence of Snacko.

Just like squirrels, our customers are active, curious, and always reaching for their next bite of joy. Squirrels naturally collect and store food, especially snacks like nuts and seeds - mirroring our focus on portable, flavorful, and wholesome snacking.
